New Road Opened Yesterday.

The new branch of the Delaware and Hudson company between Carbondale and Honesdale was opened yesterday without any particular ceremony. Instead of the old gravity coaches formerly in use the large, yellow coaches were run through over the new branch and passengers were landed at the new depot in Honesdale.

The cars on the Honesdale branch have been newly painted and the engines remodeled and fitted for the increased traffic over the road. Frank Van Dusen, of Carbondale, has been appointed night operator at the new Honesdale station.

Superintendent of Dining Cars.

F. D. Smith has been appointed superintendent of dining car service for the Lackawanna railroad. He will enter upon his new duties February 1. Mr. Smith is a thoroughly experienced railroad man, particularly in this branch of the service. He began his work in the railroad business in 1870, working through all departments of the service from news agent to train master on the Chicago and Alton and the Chicago and Northwestern railroads. For five years he was private secretary to W. A. Gardner, now general manager of the Chicago and Northwestern railroad. In 1888 he associated himself with the Pullman Palace car company as conductor, and after two months of service he was made assistant superintendent at Omaha. In 1890 he took service with the Chicago, Milwaukee and St. Paul railroad as assistant superintendent of sleeping car and dining car service. This position he leaves to enter upon his duties with the Lackawanna railroad.

With the installation of Mr. Smith the Lackawanna railroad takes entire supervision of its dining car service, which it is the intention to place upon the highest possible standard. Plans already are under way for establishing this standard. When they are completed the Lackawanna's dining car service will be second to none in this country.

Traction Company's Waiting Room

The Scranton Railway company has fitted up a convenient waiting room in the first floor of the building, corner of Lackawanna and Penn avenues, for the accommodation of their patrons. The quarters are those formerly occupied as the dispatcher's office on the ground floor, and are well lighted and heated.

A man will be stationed there to announce the different cars as they pass the door, and it will hereafter be known as the main transfer station.

Passengers from West Scranton for Providence and Green Ridge will transfer at that point instead of at the corner of Franklin avenue, and all cars will stop at the transfer station. The innovation will be a great accommodation to the patrons of the road, especially during the winter season, and in rainy weather, when waiting for cars. A large sign has been hung over the entrance and seats have been placed inside for patrons.

Through Cars for Scranton.

The Central Railroad of New Jersey has placed through cars on their fast freight between Scranton and New York, for the accommodation of their patrons in this city. The train leaves Fifteenth street, New York, at 7 p. m., and arrives in Scranton at 4 a. m. The change is made to handle merchandise freight from upper New York city.

THE REVISED LIST FOR NEXT WEEK
